

City Airport Flight Path Changes and Airport Expansion

Public Discussion:
Weds 26 October
7.30pm
Heathcote Arms
344 Grove Green Rd
E11 4EA

In February 2016 City Airport changed their flight paths – creating noise ghettos and decreasing quality of life in our communities.

Impacted: Leyton, Leytonstone and Wanstead plus Redbridge, and more areas of East and South London.

The expansion of City Airport and any other London airport will worsen pollution.

Have you been affected by the increased noise? We'll have speakers from **HACAN East** and others, with a short video and advice on what we can do to oppose the changes.

Our regular discussion meetings are aimed at engaging with the issues and understanding what steps we can take. Please come along to find out more. Email wfrcoord@googlegroups.com so we know numbers. Thanks!
